The following is an examiner's statement of reasons for allowance: applicant states that Adelman et al disclose thermoplastic molding materials of high molecular weight thermoplastic aromatic polycarbonates, and that Harke et al disclose a castable, curable (*i.e.* thermosetting) composition that includes (i) acrylic acid monomer and/or derivatives thereof and (ii) a polycarbonate copolymer. Thus, applicant asserts that there lacks a motivation to combine thermoplastic molding materials Adelman et al and a castable, curable (*i.e.* thermosetting) composition Harke et al, and the examiner agrees with applicant's position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
